Max Jax Kit #1

The versatile Max Jax is the ideal fabricator stand. The large 12" vee head and heavy duty five-legged design offers the welder a maximum margin of safety on pipe up to 36" (90 cm). With optional accessories, such as the heavy duty casters and Sumner Hold-Down Device, pipe weighing 2,500 lb (1,135 kg) per Max Jax can be wheeled with ease from storage rack... to welding bay... and onto the shipping dock. This means the load is lifted only once, resulting in a reduction of 50% or more in handling costs. Pictured with optional hold down chain.
